Full product description

Bracket for mounting a satellite dish on a chimney

The robust steel chimney stack bracket allows for easy attachment of an antenna mast with a maximum diameter of 50 mm. The chimney clamp is perfect for places where you want to **avoid drilling**, for example in the chimney. The use of galvanized steel ensures **resistance to corrosion** and other damage.

How to mount a satellite dish mount on the chimney

For easy installation of the antenna, the kit includes 2 5 m long steel bands, 4 band tensioning screws and 6 protective corners.
