Referention number: DNXGHHNNFRMMHN

### Full product description

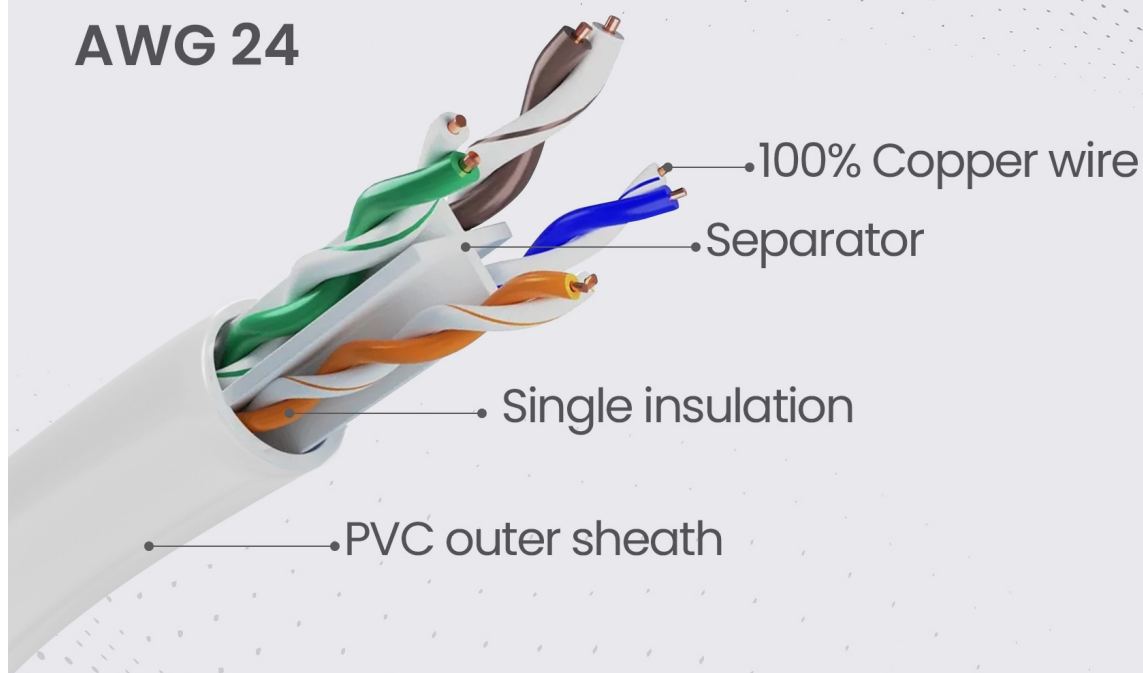

#### UTP Cat.6 network cable. Package contains 25m of cable

Network cable most commonly used for the construction of local area networks. **Category 6** includes cabling whose bandwidth requirements are up to 250 MHz (bandwidth of 200 Mbps). It provides for the implementation of **Gigabit Ethernet (4x 250MHz = 1GHz)** and **ATM transmission of 622 Mbps**. It is built with 4 pairs of cables twisted together to eliminate electromagnetic and mutual interference. The cables are made of **pure copper** and surrounded by an **HDPE sheath with a diameter of  $0.92 \pm 0.03$  mm**, which has an increased density and particularly **high dielectric insulation**. They have an outer **PVC sheath** with a thickness of  $0.50 \pm 0.05$  mm.

# CAT6 UTP (U/UTP) Indoor network cable 25M

AWG 24

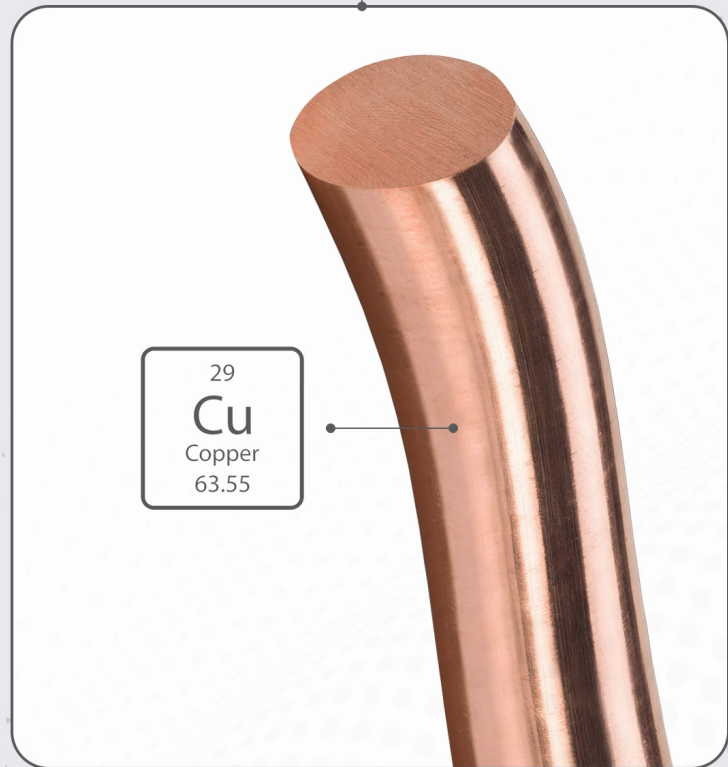

## HIGH QUALITY MATERIALS

### Features

- UTP network cable Cat. 6
- Package contains 25 m of cable
- HDPE sheath with a diameter of  $0.92 \pm 0.03$  mm
- PVC outer sheath  $0.50 \pm 0.05$  mm thick
- Cable designed for indoor use

# 100% Pure Copper PVC outer sheath

## Convenience of use

The package is equipped with a self-unrolling reel, which allows the cable to be conveniently unrolled without the danger of entanglement.

# Cable compliant with PoE, PoE+ and PoE++ standards

Enables power supply via network cable

**PoE++**

Video conferencing system

High-resolution outdoor camera

Mini PC

Smart home systems

**PoE+**

IP PTZ camera

Powerful Wi-Fi access point

IP Intercom

**PoE**

Basic Wi-Fi access point

Small IP camera

IP Phone

## Durable cable for indoor installations

The cable is designed for indoor use. It is ideal for building installations in offices or homes. Twisted-pair cable is also often used in closed-circuit television installations, where one cable can transmit video signals from several cameras and power.

# DURABLE AND ROBUST

Ideal for network cabling

**MAX.  
1000 MHZ**

**10  
GBIT/S**

**100%  
PURE COPPER**

# UNIVERSAL CABLE CAT. 6

# Solid and proven design, ensuring reliable and uninterrupted communication

Highest speed

Reliable connectivity

Uninterrupted
