Price: **4.49 zł** gross / 3.65 zł net

Manufacturer: EXTRALINK

Referention number: DNXFMPHLGRMMJN

Information:

Extralink Keystone CAT6 UTP is an unshielded keystone socket for building subscriber outlets and patch panels in internal horizontal and vertical installations. Designed for telecommunication networks that are not susceptible to electromagnetic interference, it provides a convenient and reliable connection for Cat6 cables with RJ45 plugs. It supports 10 Gigabit transmission over distances of up to 100 m at a bandwidth of 250 MHz, making it a good choice for efficient and stable network installations.

Product features

Connector(s)	RJ45
Cable shielding	U/UTP (UTP)
Material	Plastic
Product colour	White
Cable standard	Cat6

Full product description

Extralink Keystone CAT6 UTP

Unshielded keystone jacks are used to build both subscriber points and patch fields in horizontal and vertical indoor installations in **unshielded** (UTP) data communications networks affected by electromagnetic interference. **RJ45 plugs** used to connect to Cat6 cables, which offer 10 Gigabit up to 100 meters at 250 MHz frequency bandwidth
