Designation	General purpose

Full product description

Bracket for mounting a satellite dish on a chimney

The sturdy, galvanized steel handle allows for easy attachment of an antenna mast with a maximum diameter of 50 mm to the chimney. The chimney clamp is perfect for places where you want to **avoid drilling**, for example in the chimney. The use of galvanized steel ensures **corrosion resistance**.

How to mount a satellite dish mount on the chimney

For easy installation of the antenna, the kit includes 2 7 m long steel bands, 4 band tensioning screws and 6 protective corners.
