Product features

Protective insulation	Yes
Stripping capacity (min)	0.9 mm
Stripping capacity (max)	1 mm
Product colour	Yellow

Full product description

Extralink CFS-2

The **CFS-2 stripper** is designed for preparing fiber optic cable prior to welding, to remove **250µm** buffer coating from **125µm** fiber optic cable, as well as 1mm protective sheaths. A **140 µm** diameter hole and a V-shaped groove in the working part of the tool are used to remove **250µm** buffer coating from **125µm** diameter fiber optic cable.

Features of the CFS-2 optical stripper

- The tool does not require adjustment
- No scratches or scrapes on the fiber optic cable.
- The tool is equipped with a locking latch to lock in place
