Price: **799.00 zł** gross / 649.59 zł net

Manufacturer: EXTRALINK

Referention number: DNXGHHPQERMMKM

Information:

The SUP board measuring 335 x 81 x 15 cm is a stable model for recreational paddling, balance training and peaceful trips on lakes and rivers. The wide deck and 3 mm EVA foam improve comfort and grip, while the rigid construction made from wire drawing 2700 GSM material and double-layer side walls support durability and help the board retain its shape on the water. The set includes a 3-piece aluminium paddle with 165-208 cm adjustment, a hand pump, a transport backpack, a leash for the foot, a removable fin and a repair kit. It is a practical set for active leisure and easy transport.

Full product description

The perfect SUP board for beginners and intermediates

The SUP board model SUP-2011 is an excellent choice for beginners and intermediates who are looking for a sturdy and stable paddleboard. With a width of 71 cm and a length of 335 cm, it provides exceptional stability on the water, making it an ideal choice for those just beginning their paddleboarding adventure.

Durable design and comfort

Made of high-quality materials such as nylon, EVA foam and PVC, the SUP-2011 board is durable and resistant to damage, and provides comfort and convenience. With a maximum load of 130 kg, the board is perfect for a variety of conditions, whether on lakes, rivers or seas.

Complete equipment and excellent performance

The board comes with a backpack for transport, fin, pump, paddle and repair kit, ensuring that it is fully ready for use right after purchase. The maximum working pressure of 15 psi guarantees optimum hardness of the board, which translates into excellent performance on the water. A displacement of 320 liters allows comfortable swimming and makes the board suitable for recreational use.

Aesthetics and functionality in two colors

Available in turquoise and white, the SUP-2011 board is not only functional but also aesthetically pleasing, fitting perfectly with modern trends in the world of water sports. With a weight of 12 kilograms (13 kilograms with packaging), it is light enough to be easily carried, while offering the sturdiness and durability that will ensure comfort and safety during any trip on the water.
