Full product description

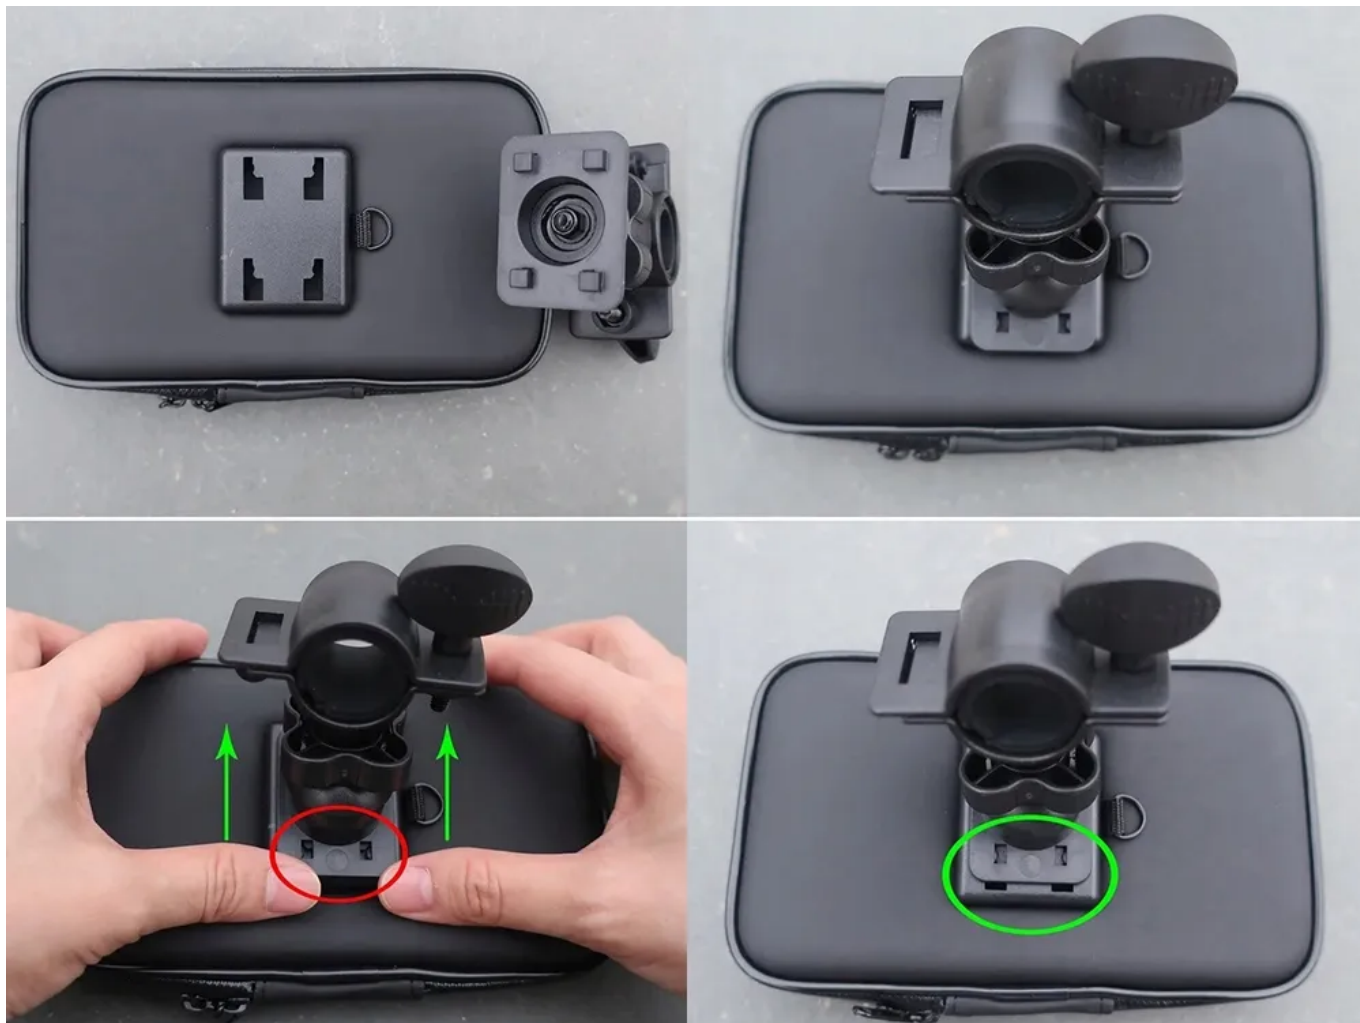

Phone bike holder - practicality in all conditions

Looking for a reliable bicycle phone holder that will give you full control over your device while riding? This **waterproof lockable 360 swivel mount** is a product that will meet your expectations in all conditions. With **360-degree rotation**, your phone will always be in a comfortable position, and you don't have to worry about rain or mud.

Waterproof cover protects the phone

Thanks to **the waterproof cover** used, your phone is protected from rain, mud and moisture, so you can use it even in harsh weather conditions. **The lockable waterproof holder** ensures that your device won't be damaged while on the go. The 360 swivel lockable waterproof holder is a must-have for any rainy day.

Can be rotated 360 degrees

The 360-degree rotation capability allows you to easily adjust the angle of your phone, so you can comfortably use navigation, music, or other apps while on the road. The mount allows you to rotate your phone, giving you the freedom to set the optimal view, whether you're riding on a straight trail or traversing more difficult terrain. The **360-degree angle can be easily adjusted** for comfortable use in any situation.

Secure installation on the steering wheel

Simply attach the holder to the handlebars, and its sturdy design ensures that the phone is held firmly throughout the journey. With an adapter for different frame diameters, mounting the holder is extremely easy and fast. The bike handlebar holder is reliable, and its **sturdy clasp** guarantees security, even on uneven terrain.

Easy installation and product durability

Mounting the holder to the handlebars of your bike is quick and requires no specialized tools. Thanks to high-quality materials, the holder is resistant to shock and vibration, ensuring that your phone will be held securely throughout the trip. **Thanks to its sturdy design**, the holder provides peace of mind, even in difficult riding conditions.
