Full product description

Gaming at the highest level - EXTRALINK GAMING MOUSE DK1 RGB

Take your gaming to a new level with the **Extralink DK1 RGB** gaming mouse ! This advanced device was created for gamers who value precision, speed and reliability. Thanks to its ergonomic design and striking **RGB backlighting**, the mouse not only works perfectly, but also looks great on any desk.

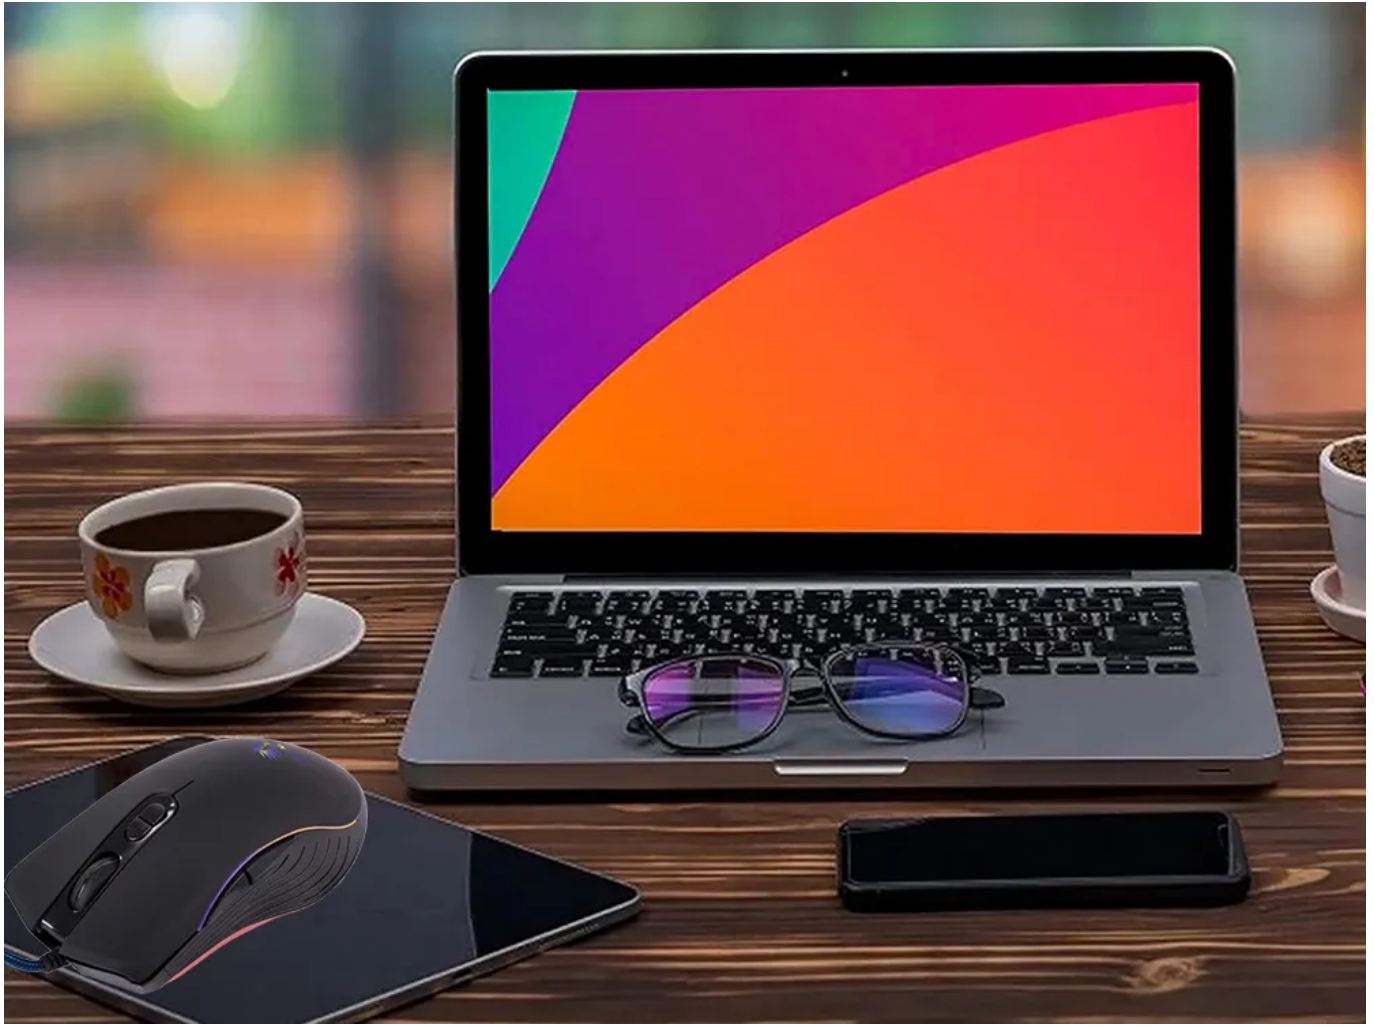

Precise sensor and adjustable DPI

The Extralink DK1 mouse is equipped with an advanced optical sensor that ensures precision and smooth movement. The adjustable DPI range(**1200-2400-3600-4800-6000**) allows you to adjust the sensitivity of the mouse to your needs - ideal for both fast-paced gameplay and precision work. **Changing DPI settings at the touch of a button** means you can dynamically adapt to the game situation.

Striking RGB backlighting

The **RGB** backlighting of the Extralink DK1 mouse is not only about style, but also about functionality. Thanks to the colorful design, you can create a unique atmosphere while playing, matching your style. This is a product that perfectly combines appearance and performance - every **movement becomes even more spectacular!**

Ergonomic design and comfortable to use

The design of the mouse was **created with comfort in mind** - ideal for right-handed users. High quality materials and careful contouring make the mouse fit perfectly in the hand, providing comfort even during long gaming sessions. Thanks to its light weight and precisely positioned buttons, your work and entertainment will become even more efficient.

Functionality and durability

The Extralink DK1 mouse has **4 function buttons** and a scroll wheel that make both everyday work and gaming challenges easier. The **170 cm long** wired **USB cable** provides a stable connection so you can focus solely on gaming. Durable design and high quality workmanship guarantee that the product will serve you for years.
