Price: **1,899.00 zł** gross / 1,543.90 zł net

Manufacturer: EXTRALINK

Referention number: DNXGGKMSGRMMNI

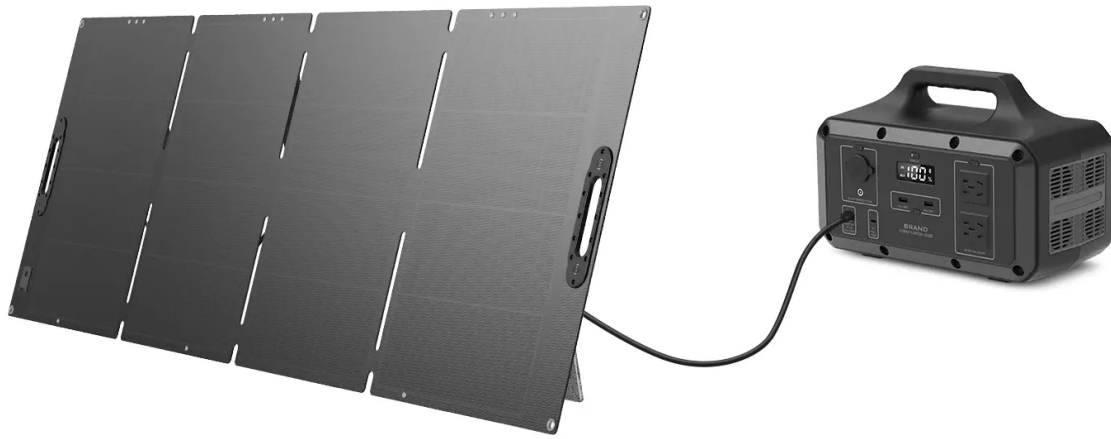

Product features

Rated power	200 W
Connector type	MC4
Folded height	25 mm
Folded depth	381 mm
Unfolded height	15 mm
Folded width	616 mm
Unfolded width	1370 mm
Solar panel current	576 mA
Unfolded depth	616 mm
Solar panel power	200 W
Maximum output voltage	20.8 V
Solar cell type	Monocrystalline silicon

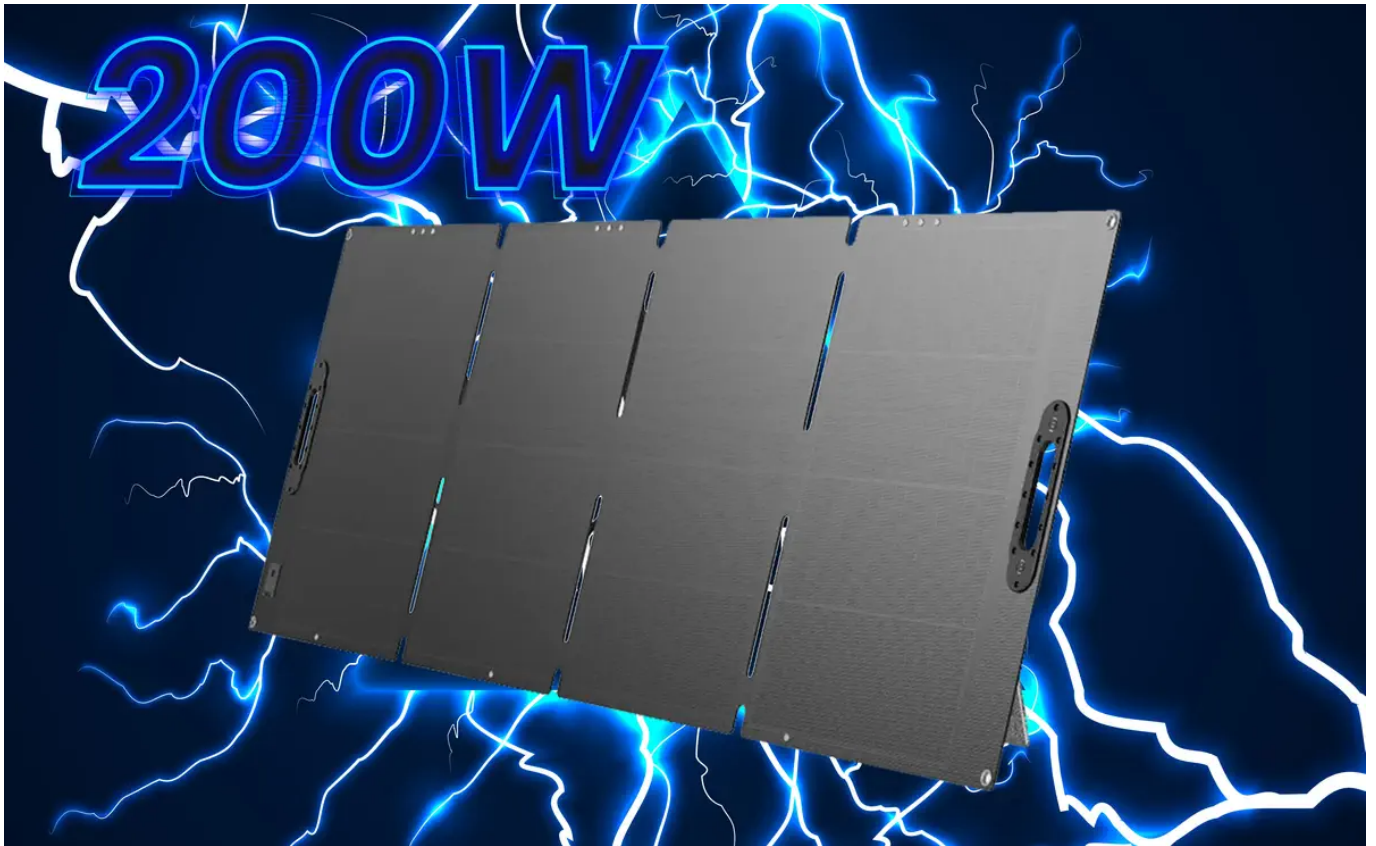

Full product description

Extralink EPS-200W Foldable Solar Panel for Power Station, Power Station

The **Extralink EPS-200W foldable solar panel** is an excellent choice for those who value flexibility. When high power but also space and weight are important, the **200W solar charger** is ideal. The solar charger contains high-efficiency solar cells, which makes the panel area relatively small compared to similar 200W panels. The **200W solar panel** is suitable for use [with most portable power stations](#) while camping.

Key features of Extralink EPS-200W

Created with camping in mind

A sturdy stand on the back allows the panel to be positioned at a 45-degree angle, placing the panel at an optimal angle to the sun. **Made for camping** and adventures in places without access to grid power, the 200-watt foldable solar panel kit is ideal for long trips when your **power** station needs power.

Great in combination with Extralink EPS power station

The **Extralink EPS-200W solar panel solar charger** is compact, lightweight and can be easily disassembled. Just connect one cable and it can charge **portable power stations**, creating a **solar generator**. During outdoor activities, it can be easily placed in the sun to provide sun exposure.
