Full product description

Meet the Extralink FXPB-1 - a robust and versatile reel stand, ideal for any professional workshop or warehouse.

With a horizontal design and a load capacity of up to 200kg, this drum stand provides **the reliability and stability** you need to store and unroll cables. It's an indispensable tool that will make your work easier and more efficient.

Robust design and high durability

Drum stand from the company [Extralink](#) was designed with durability in mind. Its sturdy design allows for **loads of up to 200kg**, making it ideal for storing heavy cable drums. This gives you the assurance that the product can withstand even the toughest tasks.

Ease of use and versatility

The horizontal design of the Extralink FXPB-1 stand makes it easy to unwind cables without the risk of entanglement. It is an extremely easy-to-use tool that makes work in the warehouse or workshop much faster and easier. In addition, the rack is compatible with various types of reels, making it a versatile solution for many applications.
