Full product description

Waterproof Bike Bag with Phone Holder

The Extralink waterproof bicycle bag is a practical **accessory** that will come in handy on any bicycle trip. It is designed to conveniently store small items such as keys, wallet and phone, and the **phone holder** allows you to use your device safely while riding. **The bag's waterproof** design provides protection from rain, and thanks to adjustable Velcro straps, mounting is quick and convenient.

Water resistance and durability

The **Extralink** bicycle bag is made of weatherproof materials, which makes it **waterproof**. As a result, your items are protected from the rain, and you don't have to worry about their safety while riding. **The bag 's cover** ensures that even in harsh conditions, everything stays dry.

Large capacity and convenient access

The bag is equipped with **one roomy** zippered **compartment** and an additional pocket on the side. This allows you to store a variety of items, such as your phone, keys or small bicycle accessories. **The double zipper** provides easy access to the bag's contents, even while riding.

Transparent phone holder

The bag has a **transparent front** that allows you to conveniently use your phone without removing it from the bag. With **the phone holder**, you can use navigation or take calls without interrupting your ride. The holder is compatible with phones **up to 6.8"**, making it ideal for most models.

Convenient installation and adjustment

The bag is easy to mount on **the bike frame** thanks to the **adjustable Velcro** straps that keep the bag stable while riding. In addition, the bag has **reflective strips** that increase the cyclist's visibility after dark, improving safety. **The bicycle pannier** is quick to assemble and disassemble, making it a convenient solution for any trip.
