Full product description

Extralink GG400X projector - your new entertainment space

The Extralink GG400X projector is a device that provides a unique experience in every detail. Thanks to **Android 11.0**, you can access your favorite streaming apps, such as Netflix and YouTube, without having to connect an additional device. **The modern design** combines stylish looks with functionality, offering excellent picture quality and complete freedom of use, no matter where you are

Your source of entertainment

200 ANSI lumens - bright image

The **Extralink GG400X** projector provides great image brightness with **200 ANSI lumens**, making it an excellent choice in a variety of lighting conditions. Its **quiet operation** ($\leq 25\text{dB}$) guarantees comfortable use without disturbing movie watching or gaming. Even in natural outdoor conditions, such as outdoors, the projector delivers a clear and well-lit image

Android 11 - built-in intelligence

The Extralink GG400X projector is equipped with **Android 11**, which ensures smooth application performance and quick access to multimedia. With **Wi-Fi 6** and **Bluetooth 5.0**, the device offers high-speed connections for convenient use of streaming services and other applications. **Advanced connectivity technologies** make the Extralink projector exceptionally functional, enabling seamless data transfer and use of external devices

Auto Trapezoidal Correction

The Extralink GG400X projector is a device that not only offers **high image quality**, but also ease of use thanks to its **automatic keystone correction** function. With this technology, you can quickly and effortlessly adjust the image to any projector setting. **Wireless image transfer** from your phone, tablet or laptop allows you to conveniently use the device without the need to connect cables

Freely Screen Mirror Your Phone/Tablet/Laptop
