Information:

Extralink G-522 is an ergonomic gaming chair with a bucket seat, designed for comfort during gaming, work and relaxation. It offers height and backrest tilt adjustment, adjustable armrests and two cushions: a headrest and a lumbar cushion, which support the neck and spine. The deformation-resistant foam filling, breathable fabric combined with eco leather, and a metal five-star base ensure comfort, durability and stability. The chair has a pull-out footrest, supports a load of up to 150 kg and stands out with a black-and-red, dynamic design.

Full product description

Extralink Gaming Bucket Gaming Chair Black and Red G-522

A gaming chair is a functional piece of equipment for people who value comfort and attractive design. It is ideal for long hours of gaming, working, relaxing or watching television.

Our chair stands out for:

The chair's thoughtful design helps maintain a comfortable position while gaming, working and relaxing.

- A contoured bucket seat that **adapts to the shape of the body**.
- Comfortable armrests that **support the arms during prolonged use**.
- Two cushions: one for the head and one for the spine, which **increase seating comfort**.
- An ergonomic shape that supports **correct posture**.

Solid workmanship

The chair is characterised by solid workmanship and attention to detail. The materials used and the stable construction contribute to comfortable everyday use.

Main advantages of the gaming chair

The combination of a contoured seat, additional cushions and adjustment options helps tailor the chair to the user's needs.

- **Durable materials:** seat made of foam resistant to compression and backrest filled with soft RAMPAGE material.
- **Ergonomic support:** lumbar cushion and headrest support the back and neck during prolonged use.
- **Stable construction:** the bucket design helps stabilise the body and increases seating comfort.
- **Adjustable armrests:** the ability to adjust their position to the user's height and needs.
- **Metal base:** contributes to the chair's stability and durability.
- **Durable gas lift:** the chair's design allows use with a maximum load of up to 150 kg.

Chair for gaming, work and relaxation

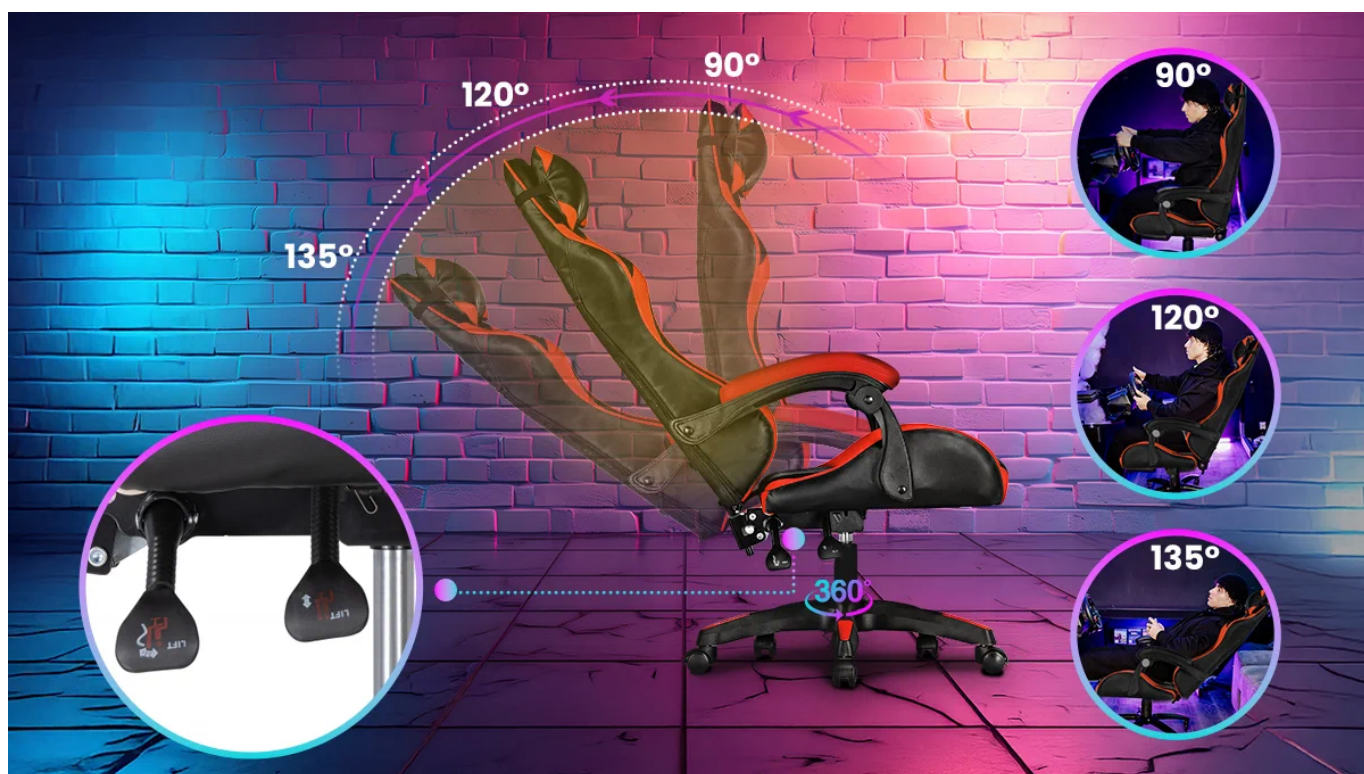

The Extralink G-522 chair is suitable for use with a computer, laptop and when using Xbox, PlayStation and other devices. Its versatile application also makes it a practical gift idea for a gaming enthusiast.

Product features

The chair combines adjustable elements, soft filling and a stable construction, making it suitable for a variety of everyday activities.

- **Practical design:** the metal base and gas lift allow the chair to be used with a load of up to 150 kg. The resilient foam is resistant to deformation, and the bucket seat helps maintain a stable position.
- **Neck support:** the headrest helps maintain a comfortable head and neck position while sitting.
- **Lumbar cushion:** its adjustable position allows the lower back support to be tailored to the user.
- **Soft filling:** the foam increases comfort during remote work, studying and long gaming sessions.
- **Stable base:** the five-star design helps keep the chair stable even during dynamic movements.
- **Gaming and relaxation setup:** the reclining backrest allows you to adopt a comfortable position while gaming, watching a film or resting.
- **Height adjustment:** the overall chair height range from 112 to 122 cm makes it easy to adjust to the user's height and desk height.

Why choose this chair?

The Extralink G-522 offers features that allow the seating position to be adjusted for gaming, work and relaxation.

- **Two adjustable cushions:** for the lower back and neck, supporting a comfortable body position.
- **Bucket seat:** made of high-resilience HD foam resistant to compression and a backrest filled with Soft Foam.
- **Practical upholstery:** a combination of breathable fabric and easy-to-clean eco-leather.
- **Backrest tilt adjustment:** allows the chair position to be adapted to the activity being performed.
- **Height adjustment:** the overall chair height can be adjusted from 112 to 122 cm.
- **Five-star base:** stabilises the structure during everyday use.
- **Soft armrests:** upholstered in eco-leather for greater arm comfort.
- **Black and red design:** emphasises the gaming character of the setup.
- **Maximum load:** the chair's construction allows use with a load of up to 150 kg.

Pull-out footrest for greater comfort

The chair is equipped with a **pull-out footrest**, which allows comfortable leg support while relaxing, watching a film or taking a break from gaming. When the footrest is not needed, it can be slid under the seat, so it does not take up extra space and is always within reach.
