Price: **179.99 zł** gross / 146.33 zł net

Manufacturer: EXTRALINK

Referention number: DNXFLNLRFRMMON

Product features

Wall mountable	No
Suitable for outdoor use	Yes
Suitable for indoor use	No
Number of fibres supported (max)	96
Number of splice trays supported (max)	4
Mast mountable	Yes
Product colour	Black
Watch case material	Acrylonitrile butadiene styrene (ABS)

Full product description

OUTER MUFFIN FTTX HARRY 4 TRAYS 96 WELD / FIBRE

The **Extralink Harry** coupler is an irreplaceable equipment used to connect optical fibre cables. It provides protection against the influence of moisture on fiber optic fibers so it can be installed in underground cable ducts, cable trays and overhead solutions.

The included fiber optic trays give the possibility of laying 96 splice covers. The mounting brackets ensure that the cable is securely gripped, while preventing it from slipping out.

The coupler is designed for mounting on poles or in cable trays. Three round ports and one oval port allow for the insertion of fiber optic bus cables while ensuring adequate tightness using shrink sleeves.
