Full product description

HOLLY 48 core fiber optic box Extralink

Extralink HOLLY 48 core is the equipment used at the point of splitting the main fiber optic cable into client cables (in PON technology). The housing can accommodate splices, splitters and other mounting accessories for network protection and transparency.

Features

- Uniform, closed design
- Resistant to weather conditions and moisture, water or dust
- Mounting, storage and distribution in one, power cable attachment and drop cable, fiber bonding
- Separate routing paths designed for cables, pigtails, patch cords
- Possibility of reversing the distribution panel and placing the power cable in an articulated manner
- The housing can be installed to the wall or pole, suitable for both indoor and outdoor installation
- The set comes with 16 x 60 mm weld guard
- Installation of SC type adapter
