Manufacturer: EXTRALINK

Referention number: DNXGGMPOLRMNHO

Information:

Extralink Home B-06 is an electronic kitchen scale with a maximum load of 5 kg and an accuracy of 1 g, ideal for precise measuring of ingredients during cooking and baking. The flat steel platform allows weighing directly or in a container, and the tare function makes it easy to subtract its weight and add further ingredients without counting. The scale offers 6 measuring units: kg, g, oz, lb, ml and ml for milk. The clear display with blue backlighting makes reading easy, while automatic switch-off, low battery and overload indicators increase ease of use.

Full product description

Kitchen scale B-06

Extralink Home B-06 is an electronic kitchen scale with a maximum load of 5 kg and 1 g graduation. It makes it easier to measure flour, sugar and other ingredients while cooking and baking. The flat platform allows products to be weighed directly or in a chosen container.

Tare function

The tare function allows you to subtract the weight of a bowl, plate or other container. It also lets you reset the reading after adding another ingredient, so you can measure several products in one container without doing any extra calculations.

Six measuring units

The scale offers six measuring units: kilograms, grams, ounces, pounds, millilitres and millilitres for milk. The UNIT button allows you to change the unit and adjust how the result is displayed to suit the recipe or the type of product being measured.

Clear display

The electronic display with blue backlighting makes it easy to check the result in different lighting conditions. The buttons placed on both sides of the screen allow you to switch the device on, reset the reading and select the appropriate measuring unit.

Portion control

The weighing range of up to 5000 g makes the device useful when preparing bakes, desserts and everyday meals. The 1 g graduation helps you control portions of chocolate, dried fruit, cereal, fruit and other ingredients that require precise measuring.

Steel platform

The smooth stainless steel platform is easy to wipe clean after use. The scale offers automatic switch-off and low battery and overload indicators, which help you monitor the device status during everyday use.
