Full product description

The perfect size for family fun

Introducing an inflatable swimming pool - the perfect choice for any family looking to cool off and entertain themselves on hot days. Measuring 200 x 150 x 50 cm, this spacious pool provides plenty of space for swimming, playing and relaxing outdoors. Designed for children over the age of 6, the Pool guarantees enough space for younger users to play safely under the watchful eye of adults.

Strength and durability

Our proposal is more than just an ordinary swimming pool - it is a guarantee of long-lasting use thanks to its construction from high-quality 0.25 mm thick vinyl PVC plastic. This durable construction ensures resistance to damage and abrasion, which means that the pool will serve your family for many years.

Easy to install

With the pool, starting summer fun is quick and easy. Its assembly and disassembly does not require specialized tools or skills - just unfold it on a flat surface, inflate the two inflatable rings, fill it with water and you're done! When the season is over, you can easily empty the pool, fold it up and store it until next summer without taking up much space.

Safety and comfort

When designing the pool, special attention was paid to the safety and comfort of younger users. Soft chambers made of two inflatable rings provide cushioning and protect against painful bumps. The offered model not only provides a safe space for play, but is also pleasant to the touch, which makes every moment spent in the water even more joyful.

Summer coolness for your family

The children's inflatable pool is an ideal choice for families who want to enjoy moments together in the great outdoors. Thanks to its durability, ease of assembly and disassembly, as well as its well-thought-out design to ensure safety, it is a product that will work well in any garden or terrace. Don't miss the opportunity to create your own summer paradise - a place where coolness and fun await you and your family every day.
