Full product description

Protecting the induction hob in your kitchen

In kitchens where induction cooktops are heavily used, it is worth taking care to protect them to prolong their life and appearance. The Extralink Home **protective mat** for induction hobs is a practical solution that will help you **protect the surface** from damage and scratches. The 53x61 cm **black mat** is a great way to **keep** your kitchen **clean**, preventing dirt and unwanted stains.

Scratch protection

The **protective mat** provides effective protection against **scratches** that may arise from daily use of the induction hob. Thanks to the high-quality **silicone material**, the mat absorbs impacts, preventing damage to the surface. As a result, your induction cooktop will maintain its aesthetic appearance for a long time, even under heavy use.

High-quality
silicone

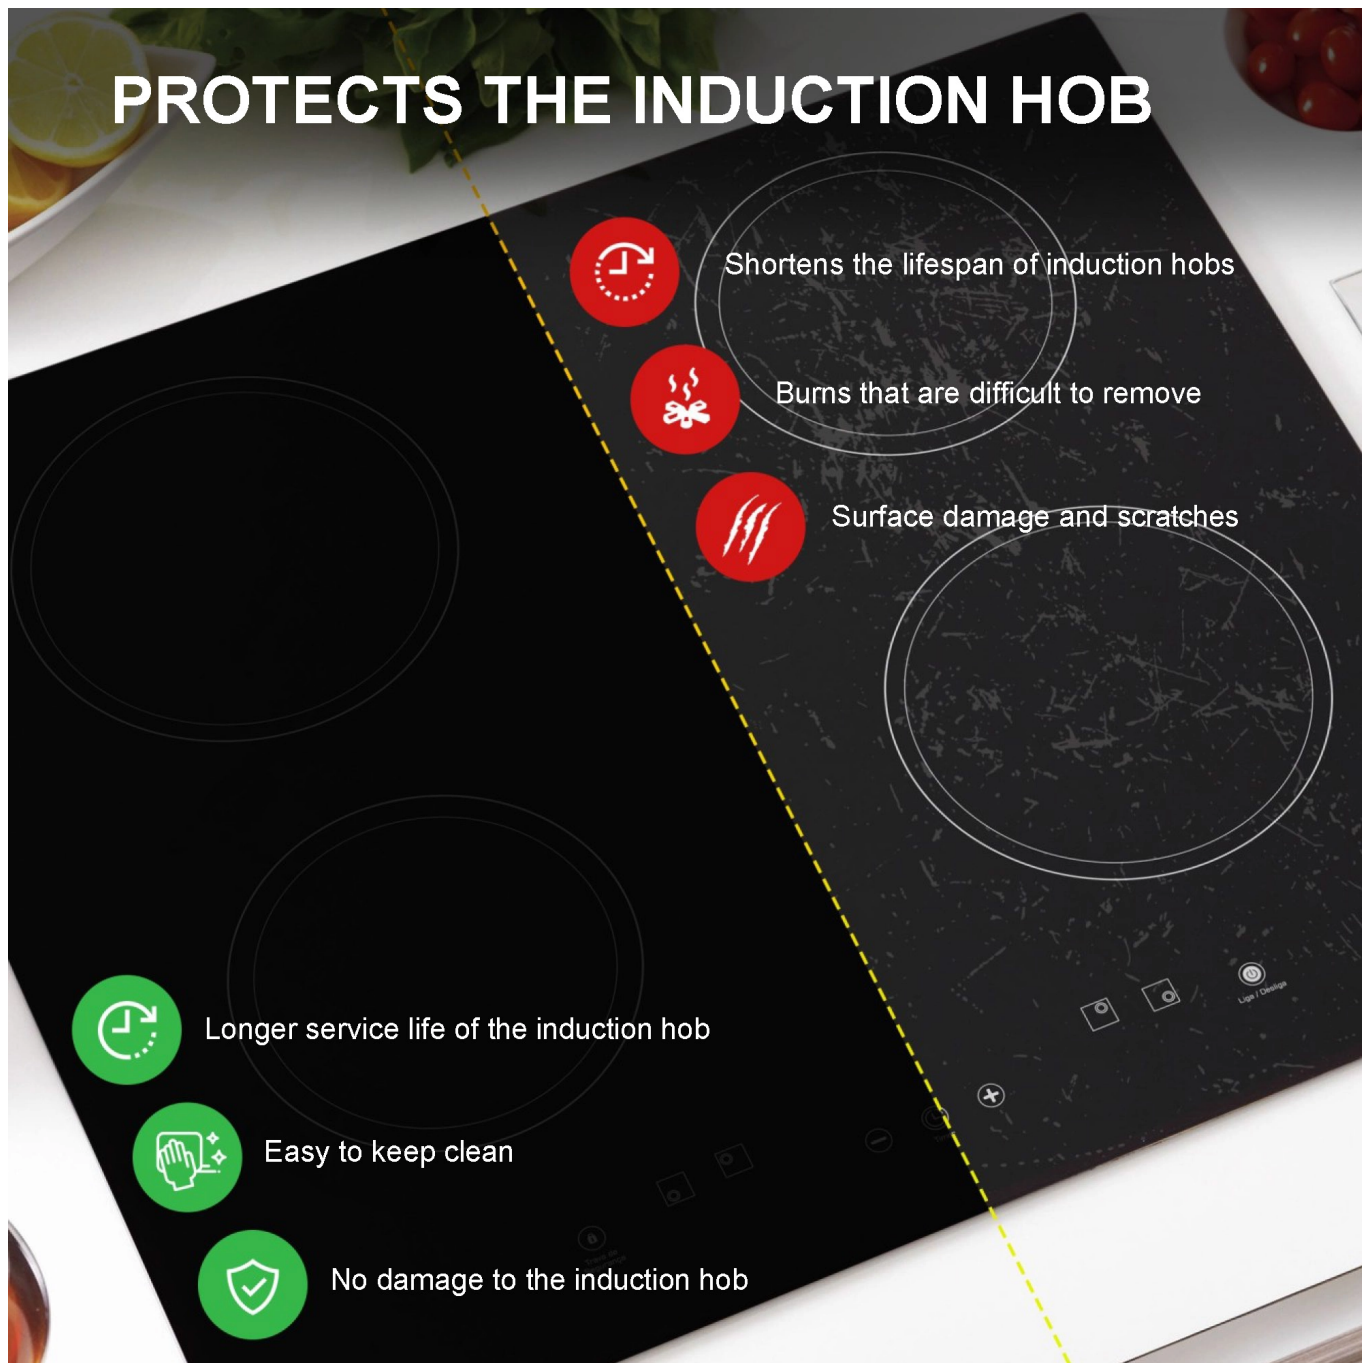

Can be cut
to size

Resistance to high temperatures

Extralink Home mats are designed to withstand the **high temperatures** found in the kitchen. **The silicone** can withstand temperatures ranging from -30°C to 260°C, making the mat resistant to hot cookware removed from an induction hob. **The heat resistance** ensures that the mat effectively protects the hob surface, even when cooking with hot pots and pans.

PROTECTS THE INDUCTION HOB

Easy cleaning and care

One of the main advantages of this **protective mat** is its ease of cleaning. After use, all you need to do is wipe it with a damp cloth, and if necessary, it can be placed **in the dishwasher**. Thanks to this, the mat will always be ready to use again, and its **cleanliness** will not be a problem, even after intensive cooking.

EASY CLEANING

Simply wipe with a damp cloth or place in the dishwasher

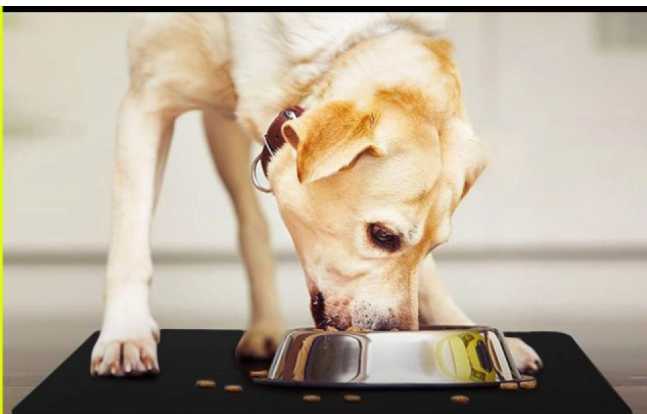

Versatile use

Induction cooktop **protection mat** is not only a practical addition to the kitchen, but also a very versatile product. You can use it as a **pad** for a variety of kitchen appliances, such as microwaves and coffee makers, protecting the surfaces from scratches. Thanks to its flexibility, the mat can also be used in other parts of the house, such as in the workshop or as **protection** against dirt on surfaces exposed to high temperatures.
