Take your kids on an unforgettable adventure full of laughter and safety!

EXTRALINK

Garden trampoline with net

Discover extraordinary outdoor fun
for the little ones with our trampoline

High quality

The shiny safety mat not only adds elegance to the trampoline, but also **strengthens its sturdiness**. The frame structure **gains strength** from the use of **galvanized steel**, which guarantees not only durability, but also the safety of the entire structure. The trampoline has an impressive **diameter of 366 cm and a height of 250 cm**, making it an impressive piece for outdoor fun.

The shiny safety mat not only adds elegance to the trampoline, but also reinforces its robustness

The frame structure gains in strength thanks to the use of galvanised steel, which guarantees not only durability but also the safety of the entire structure

Best security features

Ensuring safety is a priority when playing on a trampoline. The Extralink 12FT features a **safety net with a convenient zipper**, making it easy to both enter and close the trampoline. The net has been carefully designed to offer optimum protection and safety while jumping, eliminating the fear of falls and injuries. The **maximum load capacity is 350 kg**. The role of the springs in the functioning of the trampoline is crucial, as they are responsible for keeping the mat taut, which requires strength and reliability. The cover for the springs performs an important safety function, preventing direct access to them and thus increasing the safety of users. **The trampoline also comes with a ladder, which facilitates comfortable ascent and descent.**
