Price: **2.99 zł** gross / 2.43 zł net

Manufacturer: EXTRALINK

Referention number: DN XF MJ QQ DR MM NN

Product features

Cable shielding	F/UTP (FTP)
Cable length	0.5 m
Colour	Black
Sheath material	Polyethylene (PE) + Polyvinyl chloride (PVC)
Product colour	Black
Networking cable category	5e
Connector 2 gender	Male
Connector 1 gender	Male
Cable standard	Cat5e
Connector 2	RJ-45
Connector 1	RJ-45

Full product description

Patchcord Extralink - network cable necessary for computer networks

A **LAN patchcord** is the basic element of computer networks operating in Ethernet standard. Extralink's patchcord is used to directly connect two active devices, such as a router or switch, so that data can be transferred between them. It is also used to connect computers or VoIP telephones to the structured cabling and to make switches between patch panels in IT cabinets. It is perfect for both large and small computer networks. **Extralink's** shielded patchcord is highly flexible, which translates into installation convenience and user comfort.

Durable LAN Patchcord 26 AWG

This screened category 5e FTP Patchcord from **Extralink** is terminated with screened, gold plated RJ45 plugs. It is made of a four-wire cable, twisted pair type, made of pure copper, thanks to which it is possible to power network devices in PoE standard.

Compatible with any device with an RJ45 plug
