You will be surprised by its sound power! Refined housing — 52×52×25 mm Light weight — 58 g Small speaker, perfect audio balance Perfect ratio of surround sound and small size — the unsurpassed sounding of Mi Portable Bluetooth Speaker will pleasantly surprise your hearing. Small size allows you to easily transfer the speaker and use it in any situation. Full metal casing 3 classic colors Pleasant tactile sensations Precise casting, high-speed polishing, sandblasting, anodizing and high precision CNC cutting — each process is executed with accuracy and delicacy, in order for you to enjoy wonderful sounding and excellent design. We have done everything for perfection of this speaker. The speaker has a magnificent appearance. In addition, its construction and materials are quite durable; the shell is very robust and shock proof. You can enjoy the sound of Xiaomi Mi Portable Bluetooth Speaker for a long time, but it will look like the first day. Simple design The speaker is designed in an elegant minimalist style using a seamless technology, so it looks excellent. The Micro USB port is accurately located at the bottom part of the device. New CSR Bluetooth 4.0 technology: Power Stability With the new CSR Bluetooth 4.0 chip, you can listen to your favorite recordings for longer, and at the same time the signal will be more stable, which will provide you a complete immersion in the music. CVC6.0 technology automatically selects the appropriate sound level, depending on where you are: on the street, at home, in the office or in transport. No matter where you are, music is always with you thanks to Mi Portable Bluetooth Speaker. Listen to music in the park or the garden — just place the speaker on any suitable surface. Move forward and do not stop: carry the portable speaker on your backpack or bag. Create a relaxed atmosphere at your home; listen to quality, melodious music. At the conference or during the negotiations the Mi Portable Speaker will also be useful for you. Place the Bluetooth speaker in your car — listen to your favorite songs while traveling. And if you're a fan of the bicycle you should also choose this speaker — it does not take up much space and will give you a good mood from listening to music during the trips.
