

ARUBA 303 SERIES CAMPUS ACCESS POINTS

WLAN Access Points

WHAT'S NEW

- The Aruba AP-303P models allow you to daisy-chain your wired network to connect and power any network device (IP camera, IOT gateway, or a second access point) to the E1 Ethernet port of the AP-303P.
- Simplify and cost-reduce the installation of multiple devices by sharing switch ports and cabling.
- AP-303P models support Zigbee 802.15.4 radio to provide connectivity for IoT devices.

OVERVIEW

The Aruba 303 Series Campus Access Points delivers an affordable high performance 802.11ac with MU-MIMO (Wave 2) for medium density enterprise environments. With the integrated Bluetooth Low Energy (BLE) and supporting 802.3af power, the Aruba 303 enables enterprises to improve their work efficiency and productivity with low TCO. The compact Aruba 303 Series Campus Access Point delivers a maximum concurrent data rate of 867 Mbps in the 5 GHz band and 300 Mbps in the 2.4 GHz band (for an aggregate peak data rate of 1.2 Gbps). Featuring 2x2:2SS, it is designed for device density environments, such as schools, retail branches, warehouses, hotels and enterprise offices, where the

- 2x2:2SS SU-MIMO and MU-MIMO operation, channel width up to 80 MHz.
- Unified access points supporting ArubaOS and InstantOS modes.

environment is cost sensitive.

FEATURES

Mid-range performance and density 802.11ac Wave 2 Access Point

The Aruba 303 Series Campus Access Points are cost-optimized for delivering 802.11ac Wave 2 performance in medium density environments.

Designed specifically for moderate performance requirements.

Supports dual-radio operation in 2.4 GHz and 5 GHz bands.

Unified Access Points Supporting ArubaOS and InstantOS Modes

The Aruba 303 Series Campus Access Points deliver architectural flexibility, since they can be deployed either with a controller or in controllerless mode.

Based on the presence of a controller in the network, the Aruba 303 will load the ArubaOS or InstantOS software automatically.

802.11ac Wave 2 With 2x2:24SS, 80MHz, and MU-MIMO

The Aruba 303 Series Campus Access Points support 802.11ac with Wave 2 features including 2x2:2SS and up to 80 MHz channel bandwidth.

Radios support transmissions in Multi-User MIMO (MU-MIMO) and Single-User MIMO (SU-MIMO) operating modes.

Integrated BLE Beacon For Location Services and Asset Tracking

The Aruba 303 Series Campus Access Points have an integrated Bluetooth Low Energy (BLE) beacon to enable Aruba location services such as beacon management, location notifications and navigation.

The integration of a BLE beacon enables businesses to leverage mobile context to develop applications that deliver an enhanced user experience and increase the value of the network infrastructure.

Technical specifications

Aruba 303 Series Campus Access Points

Differentiator	The affordable mid-range Aruba 303 Series campus access point delivers high performance 802.11ac with MU-MIMO (wave 2) for medium density enterprise environments. With the integrated BLE and supporting 802.3af power, the Aruba 303 Series AP enables enterprises to improve their work efficiency and productivity with the lowest TCO. The compact Aruba 303 Series AP delivers a maximum concurrent data rate of 867 Mbps in the 5GHz band and 300 Mbps in the 2.4GHz band.
Ports	1 RJ45 (AP-300 models) or 2 RJ45 (AP-303P models) 1 micro-USB
Mounting	Ceiling, wall, wiring box, using range of mounts and kits. Basic mounts ship with product.
Connectivity, standard	10/100/1000BASE-T
Input voltage	48 VDC
Power Consumption	10.1W PoE or 8.8W DC, maximum (AP-303 models) 11.3W PoE or 11.5W DC, maximum (AP-303P models excludes power to support PoE-PSE functionality)
Minimum dimensions (H x W x D)	35 x 150 x 150 mm
Weight	280 g, maximum, depending on model

HPE POINTNEXT

Access expertise at every step of your IT journey with [HPE Pointnext Services](#). [Advisory Services](#) focuses on your business outcomes and goals, to design your transformation and build a roadmap tuned to your unique challenges. Our [Professional](#) and [Operational Services](#) help speed up time-to-production and keep your IT stable and reliable.

Operational Services from HPE Pointnext Services

- [HPE Datacenter Care](#) helps modernize and simplify IT operations. Partner with an assigned account team, access technical expertise, an enhanced call experience gives you priority access, choose hardware and software support, implement proactive monitoring to help stay ahead of issues, and access HPE IT best practices and IP.
- [HPE Proactive Care](#) offers an enhanced call experience and helps reduce problems with personalized proactive reports and advice. This also includes collaborative software support for Independent Software Vendors (ISVs), (Red Hat, VMWare, Microsoft, etc.). [Read more](#)
- [HPE Foundation Care](#) helps when there is a problem and has a choice of response levels. Collaborative software support is included and provides troubleshooting help for ISVs running on your server. [Read more.](#)

Other related services

[Defective Media Retention](#) is optional and applies only to Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

[HPE Service Credits](#) offers a menu of technical services, access additional resources, and specialist skills.

[HPE Education Services](#) delivers a comprehensive range of services to support your people as they expand their skills required for a digital transformation.

Consult your HPE Sales Representative or Authorized Channel Partner of choice for any additional questions and support options.

HPE GREENLAKE

[HPE Greenlake](#) is HPE's market-leading IT as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model. HPE GreenLake delivers public cloud services and infrastructure for workloads on premises, fully managed in a pay per use model.
