Full product description

Fonte de alimentação PoE Extralink 12 V

A fonte de alimentação Extralink 12 V PoE fornece energia a dispositivos de rede, tais como APs ou câmeras, através de fios selecionados de um cabo de par trançado. Esta solução torna possível a transferência de dados de rede enquanto fornece energia através de um único cabo.

PoE power supply Plug for electrical outlet 12V 12W 1A

LED indicator

2 Ethernet LAN ports
(RJ-45)

PoE suport

Compact size

Uma fonte de alimentação com duas portas RJ45 tem a forma de um pós-socket. A um deles é conectado o dispositivo a ser alimentado, e a segunda tomada é usada para conectar através de um switchcord ou roteador.

EXTRALINK

PoE power supply 12V 1A

The Extralink PoE power supply 12V supplies electricity to network devices such as APs and cameras via selected strands of the twisted-pair cable. This makes it possible to transmit network data while supplying power over a single cable.

PoE power supplies are widely used in various areas where there is a need to power network devices without the need for separate power supplies.

VoIP telephones

These can be easily installed in offices or other locations without the need for a separate power supply.

Network equipment

Other network devices such as switches, routers and similar devices can also be powered by PoE.

Wireless access points

Facilitates the installation and deployment of devices to ensure better wireless coverage.

External installations

In the case of outdoor installations, such as outdoor surveillance and signalling systems, PoE power supplies allow for easy installation without the need for complex power supply solutions.

IP cameras

Allows cameras to be easily installed in a variety of locations, even where power sockets are not available

Intelligent lighting and building management systems

Some lighting and building management systems can be powered by PoE, which simplifies energy management and enables easy installation.
