Price: **141,86 zł** gross / 115,33 zł net

Manufacturer: EXTRALINK

Referention number: DNXGKHQNLRMNGN

Information:

Mochila de viagem com dimensões de 40x30x20 cm, ideal como bagagem de mão para muitas companhias aéreas. Abre-se amplamente em 180°, tornando o empacotamento e a organização dos itens tão práticos quanto numa mala. Possui compartimentos para laptop, tablet, documentos e pequenos objetos, proteção macia para eletrônicos e um bolso impermeável para itens molhados ou cosméticos. As tiras laterais de compressão ajudam a ajustar o volume, e a faixa traseira permite fixação estável à alça da mala. Os painéis respiráveis aumentam o conforto ao usar, e o bolso oculto na parte traseira protege os itens mais valiosos.

Full product description

Packing conveniently like in a suitcase

A wide-opening zipper allows **full access to the contents**, eliminating the need to tediously search the bottom of the backpack. Thanks to the **180-degree** clamshell design, you can easily arrange clothes and accessories, maintaining impeccable order on every trip. Thoughtful internal compartments make sorting a tablet, documents, or small items intuitive and quick.

Zamek 180 stopni otwarcie w formie walizki

Optimal carry-on baggage dimensions

The **40x30x20 cm** design helps with stress-free airport check-in, fitting the requirements of popular airlines. Despite its compact form, the backpack offers enough space to fit a **large laptop**, allowing you to take all the essentials for a short trip. Side compression straps help adjust the luggage volume to your current needs.

Idealny do samolotu

Comfortable travel with a suitcase

A special strap placed on the back allows for **stable attachment** of the backpack to the handle of a rolling suitcase. This solution relieves your shoulders while moving through the terminal, offering greater freedom of movement. Soft, **breathable panels** on the back wall ensure proper air circulation, which increases carrying comfort even when fully loaded.

Zapięcie na walizkę

Safe compartment for valuable items

A discreet, **hidden pocket** in the back of the backpack protects your wallet, phone, or passport from unauthorized access. Placing it directly against your back means that access to the most important documents is possible only for the owner. This solution helps you stay calm while sightseeing in crowded cities or using public transport.

Ukryta kieszonka

Functional division into zones

A dedicated, soft compartment ensures the **safety of the computer**, separating it from the rest of the luggage. An additional **waterproof pocket** for wet items helps hygienically store toiletries or damp clothing. The backpack makes trip organization easier thanks to:

- a separate space for electronics,
- a sealed module for cosmetics,
- a spacious main compartment for clothes.
