Price: **119,00 zł** gross / 96,75 zł net

Manufacturer: EXTRALINK

Referention number: DNXGHINPGRMMKO

Information:

Black Forest é uma rede branca para duas pessoas, com uma ampla área de descanso de 200 x 150 cm, proporcionando relaxamento confortável a dois ou sozinho. As franjas decorativas e a cor clara conferem-lhe um aspeto leve e elegante, que combina bem com o jardim, o terraço e decorações boho. O conjunto inclui uma estrutura independente, permitindo instalar a rede sem a fixar a árvores ou paredes. É um lugar prático e atraente para descansar, ler e balançar suavemente ao ar livre.

Full product description

Black Forest - white hammock for two people

The Black Forest hammock offers a wide lounging surface measuring 200 x 150 cm. The two-person design allows for shared relaxation, reading a book, or resting in the fresh air. The white color gives the whole piece a light look and makes it easy to match the hammock with different arrangements.

Wide lounging surface 200 x 150 cm

The hammock's dimensions mean the fabric offers plenty of space for two people. The wide surface allows you to lie comfortably and adopt a relaxed position while resting. The hammock can become a place to relax in the garden, on the terrace, or in another space intended for leisure.

Decorative tassels and light color scheme

The white fabric has been complemented with decorative tassels that emphasize the hammock's relaxing character. This finish blends well with garden greenery, wooden furniture, and boho-style accessories. The light color helps create a calm and cozy relaxation zone.

Freestanding frame included

The included frame allows you to use the hammock without attaching it between trees, posts, or walls. This solution makes it easier to prepare a relaxation spot in a chosen part of the garden or on the terrace. The hammock can be placed wherever the available space allows for safe setup of the entire structure.

A place for shared relaxation

The two-person Black Forest hammock is perfect for quiet moments spent with a loved one. It can also serve as a spacious place for solo rest, listening to music, or relaxing with a book. The gentle rocking helps you unwind after an active day.

Hammock for the garden and terrace

The combination of a white hammock, decorative tassels, and a freestanding frame creates a functional element of the relaxation area. The structure does not require permanent mounting points, making it easier to adapt its position to the layout of the space. The Black Forest model combines room for two people with a decorative look.
